E-BILL SERVICE

MAINTAINING OUR MANDATE THROUGH TECHNOLOGY

With the rapid growth and demands of the organization, the department embarked on and implemented CWSA's new electronic billing (e-Bill) service.

The e-Bill platform allows customers to view monthly invoices and account history for up to one year. It is our aim that with this implementation,

we will strive to reduce printing, processing, postage, delivery & traveling, and equipment costs associated

with hard copy paper billing which will result in the overall operational and production cost savings for the organization.

The project was embraced with much excitement but also brought new challenges and opportunities as the department was faced with bringing a new service online.

This required inevitable change and organizational development. The project has so far been successful and well received by the public and customers. Customers wishing to adopt our 'going green' paperless campaign can do so by visiting and registering on the CWSA's website

www.cwsasvg.com.
